SMArt inaugurates its collection in the Valais art library

As part of the Festival Histoire et Cité, which takes place from 27 to 31 March 2019 in Sion, Lausanne and Geneva, SMArt is launching the introduction of a collection in the art library of the Valais media library in Sion. SMArt donates 12 photographs to the media library's art collection, which allows everyone to borrow an artwork and admire it at home during 3 months. This series will then be enriched with the artistic works of future SMArt artists.

The collection will be unveiled on March 30, 2019 at Les Arsenaux in Sion. On this occasion, a photo by Alejandro Leon Cannock, illustrating the theme of the Festival « Water source of life, source of death », will be commented at 11:45 and 16:15.
