Sublime effroi – Exhibition of Liz Tasa in Lima

After her stay in Sierre during the autumn 2019, Liz Tasa presents her work, Sublime effroi, in Lima.

In the course of her three-month residency at the Château Mercier in Sierre, the Peruvian photographer Liz Tasa has taken a very free approach in her work to honouring the abundant visions in the myths and legends of the Valais region, as well as the famous novel La Grande Peur dans la montagne (Terror on the Mountain) by Charles-Ferdinand Ramuz1. Relying on a variety of visual techniques, her collection of images explores several themes associated with untamed nature that subtly resonate with Ramuz's universe.
